Forward Looking Statements

Certain statements and information in this presentation may constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, including, among others, statements regarding (i) our expectations about our intrinsic value or our prospects for growth and value creation and (ii) our financial outlook, position, strategies, goals, and expectations. Terms such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “foresee,” “intend,” “may,” “plan,” “predict,” “project,” “scheduled,” “should,” “would,” and similar expressions and the negatives of such terms are intended to identify forward-looking statements. These statements are based on management’s beliefs, assumptions, and expectations based on currently available information, are not guarantees of future performance, and involve certain risks and uncertainties (some of which are beyond our control). Although we believe that the expectations reflected in these forward-looking statements are reasonable as and when made, we cannot provide assurance that our expectations will prove to be correct. Actual outcomes and results could materially differ from what is expressed, implied, or forecasted in these statements due to a number of factors, including, but not limited to: the effects of a widespread outbreak of an illness or disease, including the COVID-19 pandemic, or any other public health crisis, as well as regulatory measures implemented in response to such events; external events which may adversely affect us or the third parties who provide services for us, for which our business continuity plans may not adequately prepare us, including, but not limited to, acts of war or terrorism, or military conflicts; data privacy breaches, cybersecurity incidents, and/or failures of our information systems, including disruptions or failures of services essential to our operations or upon which our information technology platforms rely; interruption or failure of third-party software or information technology systems or licenses; untimely or ineffective development and implementation of, or failure to realize the potential benefits associated with, new or enhanced technology or processes, including the Vaux freight handling pilot test program at ABF Freight and our customer pilot offering of Vaux, including human-centered remote operation software; the loss or reduction of business from large customers; the timing and performance of growth initiatives and the ability to manage our cost structure; the cost, integration, and performance of any recent or future acquisitions, including the acquisition of MoLo Solutions, LLC, and the inability to realize the anticipated benefits of the acquisition within the expected time period or at all; maintaining our corporate reputation and intellectual property rights; nationwide or global disruption in the supply chain resulting in increased volatility in freight volumes; competitive initiatives and pricing pressures; increased prices for and decreased availability of new revenue equipment, decreases in value of used revenue equipment, and higher costs of equipment-related operating expenses such as maintenance, fuel, and related taxes; availability of fuel, the effect of volatility in fuel prices and the associated changes in fuel surcharges on securing increases in base freight rates, and the inability to collect fuel surcharges; relationships with employees, including unions, and our ability to attract, retain, and upskill employees; unfavorable terms of, or the inability to reach agreement on, future collective bargaining agreements or a workforce stoppage by our employees covered under ABF Freight’s collective bargaining agreement; union employee wages and benefits, including changes in required contributions to multiemployer plans; availability and cost of reliable third-party services; our ability to secure independent owner operators and/or operational or regulatory issues related to our use of their services; litigation or claims asserted against us; governmental regulations; environmental laws and regulations, including emissions-control regulations; default on covenants of financing arrangements and the availability and terms of future financing arrangements; our ability to generate sufficient cash from operations to support significant ongoing capital expenditure requirements and other business initiatives; self-insurance claims and insurance premium costs; potential impairment of goodwill and intangible assets; general economic conditions and related shifts in market demand that impact the performance and needs of industries we serve and/or limit our customers’ access to adequate financial resources; increasing costs due to inflation and rising interest rates; seasonal fluctuations, adverse weather conditions, natural disasters, and climate change; and other financial, operational, and legal risks and uncertainties detailed from time to time in ArcBest Corporation’s public filings with the Securities and Exchange Commission (“SEC”).

For additional information regarding known material factors that could cause our actual results to differ from those expressed in these forward-looking statements, please see our filings with the SEC, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statements after the date they are made, whether as a result of new information, future events, or otherwise.

This Month in Company History

As we celebrate our 100th anniversary, we'll be highlighting people, moments and milestones that helped shape the company. Watch your inbox for monthly history highlights, and join us as we reflect on our journey to the Heart of 100.

JANUARY

- Jan. 19, 1955 — Two employees (Inhaber J.L. Barlow and road driver C.F. Waters) save several families from a fire in Pine Bluff, Ark. Read the [2023 Business Update on ShawNet](#)!
- Jan. 1, 1967 — Arkansas Best Corporation is formed.
- Jan. 2, 1970 — The company starts its long-awaited operations in upper New York state, with direct service to Albany, Buffalo, Rochester and Syracuse.
- January 1976 — The company purchases Flanders Manufacturing, a Fort Smith, Ark.-based case goods company.
- January 1974 — The company opens a sales office in Montreal, continuing our expansion into Canada.
- January 1978 — ABF Freight opens a service center in Harrisburg, Pa.
- Jan. 1, 1979 — With the purchase of Havop Freight Lines, ABF Freight becomes one of 12 transportation major carriers, growing overnight from the 22nd largest U.S. trucking company to the 8th largest.
- January 1985 — ABF Freight starts doing business in Hawaii.
- January 1983 — President Robert A. Young III announces formation of Best Logistics Inc., a new AEC subsidiary, offering economic analysis services for the company as well as customized, third-party logistics to companies seeking management of inventory, order processing, warehousing and distribution, transportation and information systems design.
- January 1994 — The company breaks ground for a new five-story headquarters on Old Greenwood Road in Fort Smith, Ark.
- Jan. 31, 2008 — Robert A. Young III retires as CEO after a 42-year career. He remains as chairman of the board until 2016.
- January 2010 — Judy R. McReynolds is named president and CEO of the company. McReynolds is the first woman CEO of a publicly traded company in Arkansas.
- Jan. 3, 2011 — ABF Freight continues global expansion, becoming the first American trucking company to provide seamless, single-point door delivery for customers shipping to the Dominican Republic.

PROFILE

ArcBest

\$25M

On January 19, 2022, ArcBest announced our \$25M investment in Phantom Auto, the leading provider of human-centered remote operation software.

This investment reflects ArcBest's vision of great people leveraging smart technology to strengthen performance and relationships to benefit all of our stakeholders, including our shareholders.

ABOUT PHANTOM AUTO

Phantom Auto is solving fundamental challenges facing the supply chain industry, and this investment aligns perfectly with ArcBest's commitment to advancing a culture of innovation and enabling a more efficient and sustainable supply chain.

ARCBEST TECHNOLOGIES

ArcBest's investment in Phantom Auto is championed by our technology company, ArcBest Technologies, which is focused on delivering custom-built, disruptive solutions that move the global supply chain forward.

\$150M

ArcBest invests nearly \$150 million annually on technology and innovation, with half of this budget dedicated exclusively to strategic growth and transformative initiatives like those developed at Phantom Auto.

Winning Customer Proposition

ArcBest

Solves my logistics and transportation challenges

Is a trusted provider and partner

Makes it easy to do business

 **Customer visibility and access to vital information**

 **Unmatched assured capacity options**

 **Digital channels & tools**

 **Broad logistics service offerings**

 **Supply chain optimization**

 **Personal relationships**

 **Culture that empowers creative problem solvers**

 **Reputation of excellence for 100 years**

 **Integrated solutions**

Integrated Logistics Provider

FULL SUPPLY CHAIN SOLUTIONS

- 1** | International shipping from warehouse to port
- 2** | Managed transportation options for vendor consolidation at port
- 3** | Multiple transportation options from port to warehouses
- 4** | TL, LTL, and Expedite options from warehouse to customer locations
- 5** | Final Mile services for end-customer deliveries

BALANCED APPROACH TO CAPITAL ALLOCATION

Strong business performance enables ArcBest to reinvest in the business and provide returns to shareholders while maintaining a solid balance sheet and investment-grade credit metrics.

Reinvesting in the Business

- **Expect 2023 Net Capital Expenditures of \$270 - \$295 Million**
 - Part of a multi-year investment plan for equipment, real estate, innovation and technology — structured for cost optimization, revenue growth and enhanced work environment

Dividends & Share Repurchases

- **Increased share repurchase:**
 - YTD'23 share purchases equal \$41 million through 6/30/23
 - \$84 million remains available under future common stock repurchase authorization
- **Currently paying a \$0.12/share quarterly dividend**

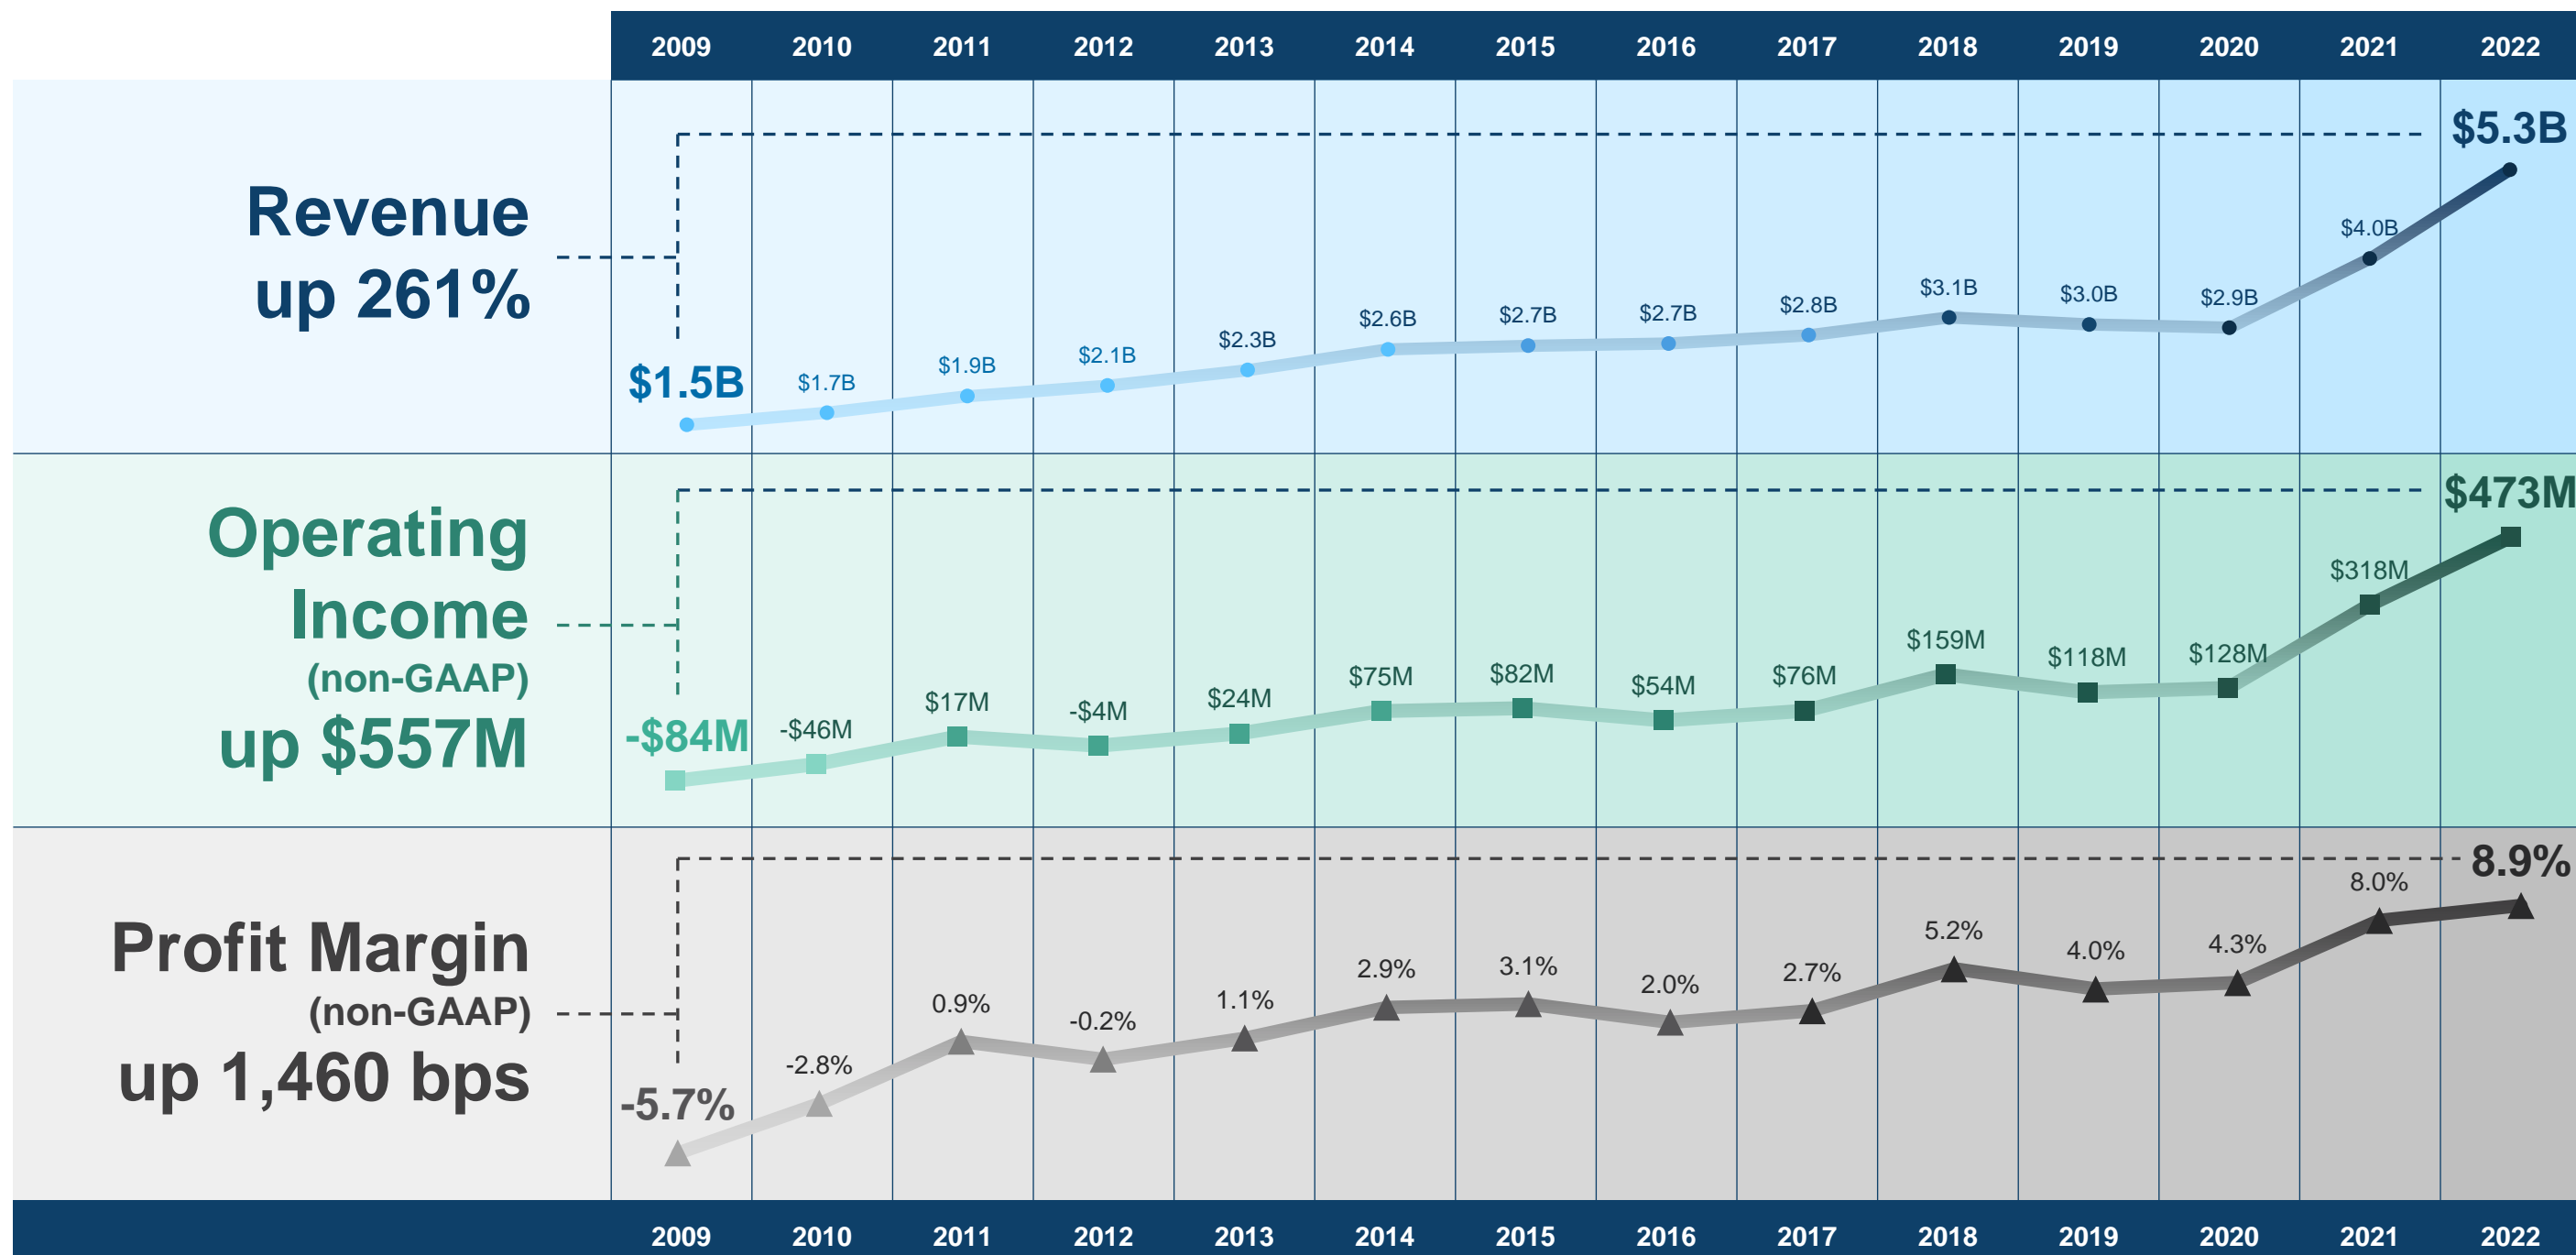

M&A Strategies

- **Accelerate progress toward strategic goals by adding capabilities and scale to more effectively serve our customers**
- **Look for strong culture fit, experienced leadership team and a pathway to return**

Three-Point Strategy Continues to Deliver Shareholder Value & Drive Business Growth

ACCELERATING PERFORMANCE OVER SUSTAINED PERIOD

Non-GAAP operating income and profit margin have been restated to be consistent with current financial statement presentation and non-GAAP measures (not adjusted for discontinued operations). See Reconciliations of GAAP to non-GAAP Financial Measures in the Additional Information section of this presentation.

The ArcBest Advantage ...

... Drives Superior Results

 <p>Integrated Services</p>	<p>True integrated logistics partner in a growing \$400B+ transportation & logistics market</p>
 <p>Differentiated Resources</p>	<p>Differentiated & difficult to replicate capacity resources with industry leading capabilities</p>
 <p>Innovative Spirit</p>	<p>Proven track record of innovative advancement throughout our 100-year history</p>

<p>Unmatched Market Visibility</p> <p>Shipment-level visibility to \$25+ billion of annualized customer spend allows for intelligent pricing and network and mode optimization</p>
<p>Demonstrated Revenue-Enhancing Benefits</p> <p>~\$500 million annually of cross-sold revenue 40% of customers utilize more than one ArcBest service</p>
<p>Strong Customer Relationships</p> <p>100% retention rate from top 50 customers 80% of revenue from customers with 10+ year relationship</p>
<p>Innovative Solutions</p> <p>Value-enhancing solutions with Vaux (as a customer freight handling solution), U-Pack, dynamic pricing and space-based pricing 75% of revenue comes from digitally connected customers, enabling scalable growth and efficiency</p>
<p>Solid Returns</p> <p>27.3% return on capital employed (ROCE⁽¹⁾)</p>

1) ROCE is shown on a non-GAAP basis for the rolling 12-month period ending 12/31/22. See Reconciliations of GAAP to non-GAAP Financial Measures in the Additional Information section of this presentation

Compelling Investment Opportunity

- 1) Historical results of FleetNet have been excluded from results for all periods presented, and reclassifications have been made to the prior-period financial statements to conform to current-year presentation.
 2) Operating Income, Net Income and Earnings Per Share are adjusted for certain unusual items. See the following slide for a reconciliation of the Non-GAAP figures presented above to GAAP financial measures.

Reconciliations of GAAP to Non-GAAP Financial Measures (Unaudited)

- 1) Represents costs associated with the Vaux freight handling pilot test program at ABF Freight, costs related to our customer pilot offering of Vaux, including human-centered remote operation software, and initiatives to optimize our performance through technological innovation.
- 2) Represents the amortization of acquired intangible assets in the Asset-Light segment.
- 3) Represents change in fair value of the contingent earnout consideration recorded for the MoLo acquisition.
- 4) Gain relates to the sale of the labor services portion of the Asset-Light segment's moving business in second quarter 2021, including the contingent amount recognized in second quarter 2022 when the funds were released from escrow.
- 5) Represents a one-time, noncash charge for enhancements to our nonunion vacation policy which were effective third quarter 2022.
- 6) Represents costs associated with the acquisition of MoLo.
- 7) Non-GAAP amounts are calculated in total and may not equal the sum of the GAAP and the non-GAAP adjustments due to rounding.
- 8) Represents increase in fair value of our investment in Phantom Auto, the leading provider of human-centered remote operation software, based on observable price changes during second quarter 2023.
- 9) Represents recognition of the tax impact for the vesting of share-based compensation.
- 10) The year ended December 31, 2022, includes the amount recognized in the tax provision during fourth quarter 2022 to adjust estimated amounts recognized during 2022 for the research and development tax credit related to the tax year ended February 28, 2022. It also includes amounts related to the alternative fuel tax credit for the year ended December 31, 2021, which were recorded in third quarter 2022. The year ended December 31, 2021, amounts represent a research and development tax credit recognized in the tax provision during fourth quarter 2021 which relates to the tax year ended February 28, 2021.

(a) Includes amortization of intangibles.

(b) Primarily reflects changes in working capital, timing of month end clearings, income tax payments.

(c) Free cash flow is a non-GAAP financial measure previously defined in this presentation. Free cash flow should not be construed as a better measurement than net cash provided by operating activities as determined under GAAP. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results. Other companies may calculate free cash flow differently; therefore, our free cash flow may not be comparable to similarly titled measures of other companies.

Net Capital Expenditures vs. Operating Cash

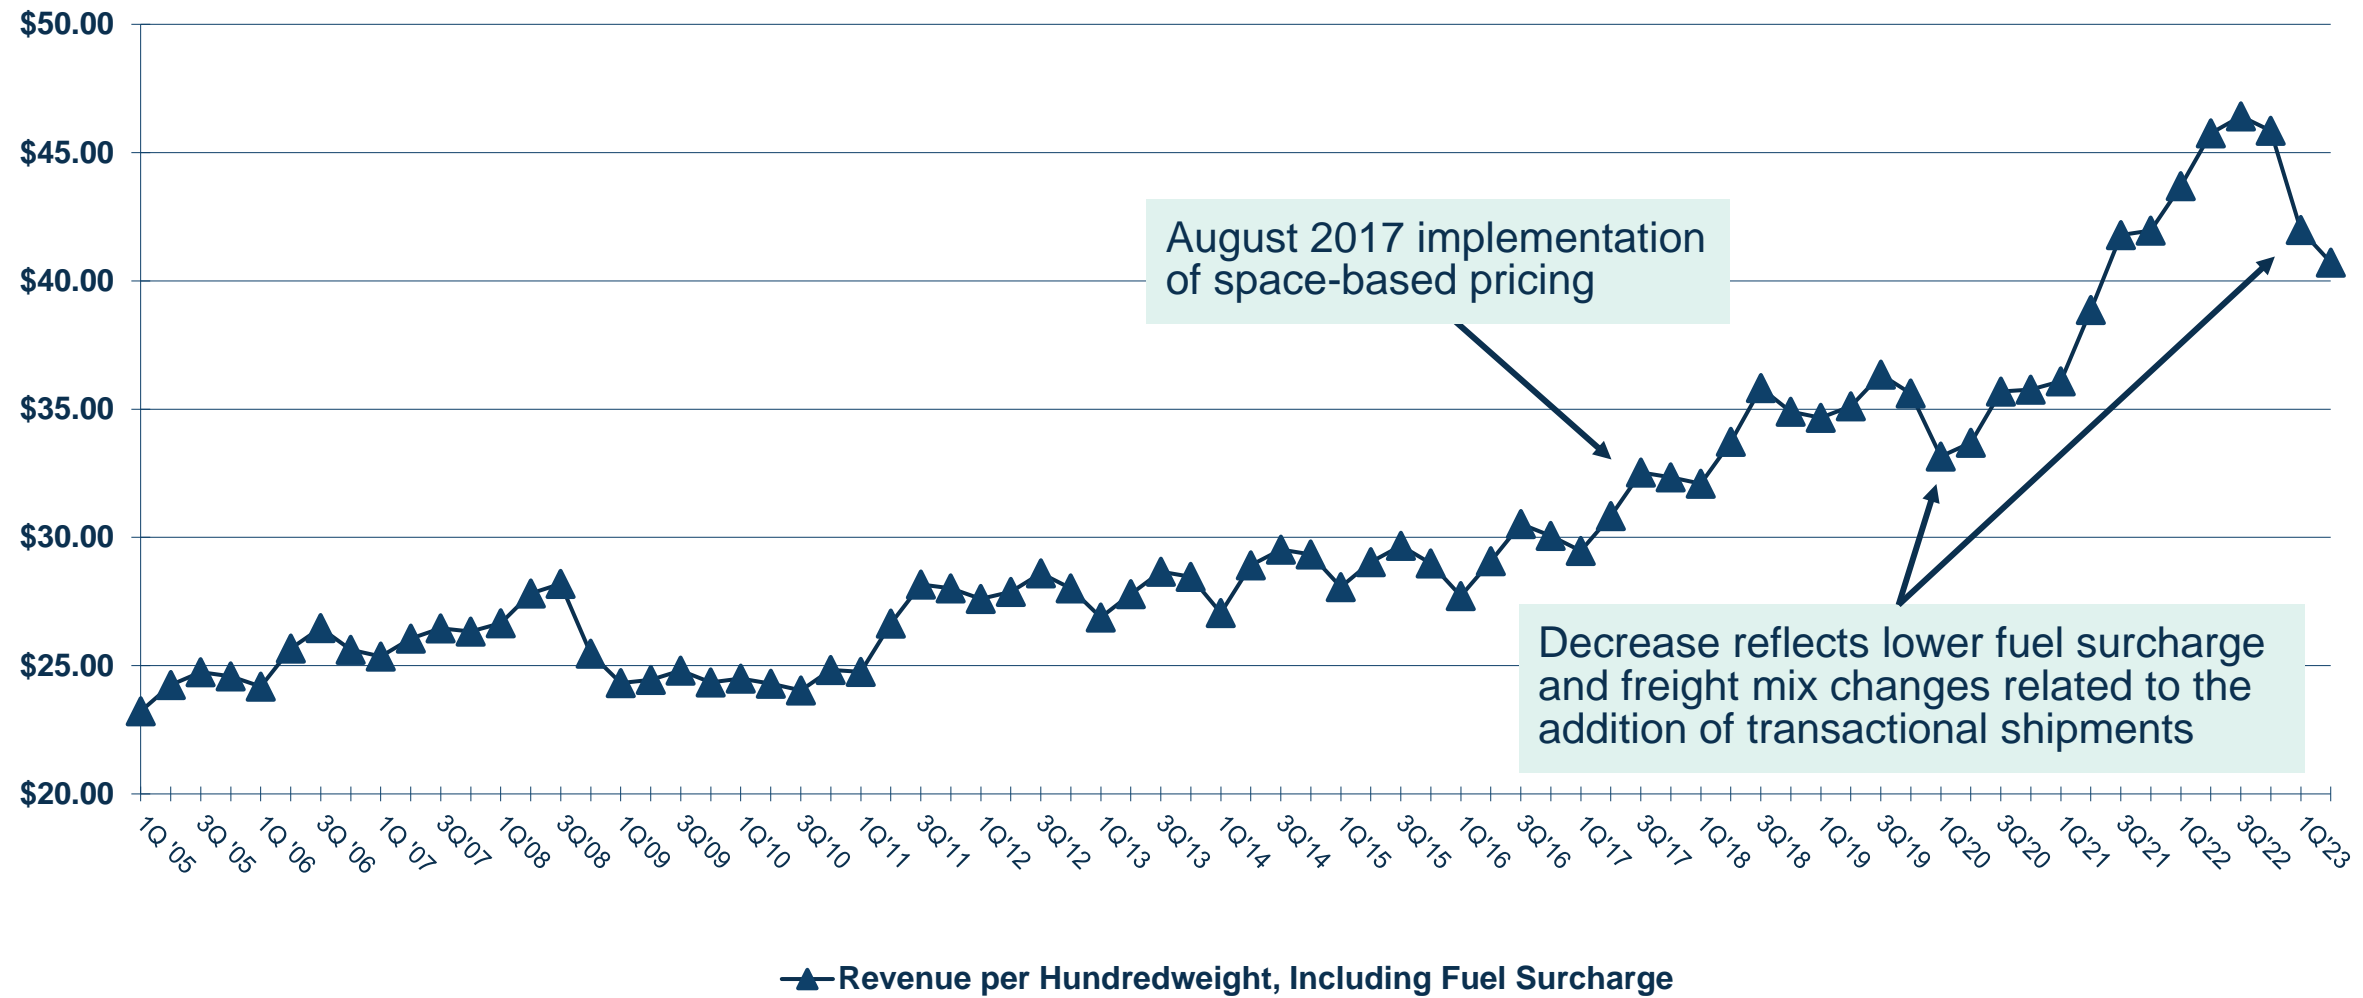

2023 Net Capital Expenditures (estimated)

- Total Net Capital Expenditures, including financed equipment: \$270 million to \$295 million (approximately \$60 million of previously planned 2022 net capital expenditures, associated with supply chain-related manufacturing delays and cancellations, are included in the 2023 net capital expenditures total).
- Includes revenue equipment purchases (majority for Asset-Based) of \$165 million.
- Includes real estate expenditures (majority for Asset-Based) of \$50 million to \$60 million.
- The remaining amount of capital expenditures includes items related to technology and miscellaneous dock equipment upgrades and enhancements.
- Depreciation and amortization costs on property, plant and equipment: approximately \$125 million
- Intangible asset amortization, primarily reflecting purchase accounting amortization related to the MoLo acquisition: \$13 million

Asset-Based Billed Revenue Per Hundredweight (including FSC)

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

Asset-Based Segment

2Q'23 Year-over-Year Yield Metrics

- Billed Rev/Cwt on core LTL rated business, excluding fuel surcharges, increased by a percentage in the high single digits.
- Average price increase on contract renewals and deferred pricing agreements negotiated during 2Q'23: +3.1%.

Year-over-Year Monthly Total Daily Business Trends

	<u>April 2023</u>	<u>May 2023</u>	<u>June 2023</u>	<u>July 2023⁽¹⁾⁽²⁾</u>
Billed Revenue/Day ⁽³⁾	-9.1 %	-10.2 %	-11.2 %	-12 %
Total Tons/Day	+1.3 %	+1.6 %	-0.2 %	-5 %
Total Shipments/Day	+4.7 %	+2.5 %	+5.4 %	+1 %

1) Statistics for the full month of July 2023 have not been finalized and are preliminary.

2) There will be 19.5 workdays in July 2023 and there were 20 workdays in July 2022.

3) Revenue for undelivered freight is deferred for financial statement purposes in accordance with the Asset-Based segment revenue recognition policy. Billed revenue per day has not been adjusted for the portion of revenue deferred for financial statement purposes.

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

Asset-Based Segment

July 2023 Business Update

Statistics for July 2023 have not been finalized. Preliminary Asset-Based financial metrics and business trends for July 2023, compared to the same period last year, are as follows:

- Total Billed Revenue/CWT decreased approximately 7% impacted by lower fuel surcharge.
- Total Billed Revenue/Shipment decreased approximately 13%.
- Total Weight/Shipment decreased approximately 6%.

The ArcBest Asset-Based segment implemented cost savings actions in July 2023 to improve overall segment profitability, resulting in a reduction in total average daily shipments to approximately 19,500 shipments per day, a decline of approximately 5% compared to 2Q'23 levels. The decrease in shipments was accomplished by reducing shipments sourced from the Asset-Based dynamic LTL-rated, market-based pricing program. In addition, over the past week, the Asset-Based segment has experienced more than a 10% increase in core LTL-rated shipments per day when compared to June 2023, which was offset by further reductions in dynamic LTL-rated shipments.

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

Asset-Based Segment

July 2023 Business Update (cont.)

The pricing environment continues to be rational as the revenue per hundredweight change in July 2023 followed an 11% increase in July 2022 versus July 2021. The decrease in the July 2023 revenue per hundredweight pricing measure was driven by the change in mix associated with a decrease in core LTL-rated shipments and an increase in dynamic, market-priced LTL-rated shipments compared to the prior year period. Lower diesel fuel costs in 2023 compared to the same period in 2022 have also contributed to reduced fuel surcharge revenue this year, thus impacting year-over-year yield management statistical comparisons. Pricing on core LTL-rated business, excluding fuel surcharges, increased by a percentage in the low-single digits in July 2023.

Excluding periods impacted by the pandemic, the average sequential change in ArcBest's Asset-Based operating ratio in the third quarter versus the second quarter has been relatively flat.

3Q'23 Other Items

- In late July 2023, the decision was made to pause the Vaux hardware pilot at ABF Freight distribution centers in Kansas City and Salt Lake City. Innovative Technology Costs associated with these pilot locations are expected to continue through August 2023.
- Projected Innovative Technology Costs in our Asset-Based business associated with the Vaux freight handling pilot test program at ABF Freight (non-GAAP reconciling item): \$6 million vs. \$6 million in 3Q'22
- There will be 62.5 workdays in 3Q'23, and there were 64.0 workdays in 3Q'22.

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

Asset-Light Operating Segment

2Q'23 and July 2023 Monthly Total Daily Business Trends

	<u>April 2023</u>	<u>May 2023</u>	<u>June 2023</u>	<u>July 2023⁽¹⁾⁽²⁾</u>
Revenue/Day (Year-over-Year)	-24.2 %	-25.7 %	-26.1%	-23 %
Shipments/Day (Year-over-Year) ⁽³⁾	+2.4 %	+4.2 %	+3.8 %	+3 %
Revenue/Shipment (Year-over-Year) ⁽³⁾	-28.8 %	-30.8 %	-30.1%	-29 %

1) Statistics for the full month of July 2023 have not been finalized and are preliminary.

2) There will be 19.5 workdays in July 2023, and there were 20 workdays in July 2022.

3) Changes in Shipments/Day and Revenue/Shipment do not include managed transportation solutions transactions for the Asset-Light operating segment for the periods presented.

Purchased transportation expense as a percentage of revenue averaged approximately 85% for July 2023, compared to the second quarter 2023 average of 83.7% and the third quarter 2022 average of 82.6%.

Year-over-year changes in revenue per shipment and purchased transportation expense as a percentage of revenue reflect continued market softness combined with business mix changes. During the current environment, ArcBest continues to manage operating expenses to align with business levels.

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

ArcBest Consolidated

On a preliminary basis, July 2023 consolidated revenues decreased approximately 18% on a per day basis compared to July 2022.

3Q'23 – Projected Other Items

- Projected Innovative Technology Costs in “Other and eliminations” related to our freight handling pilot program and human-centered remote and automated operations, as previously announced in connection with our investment in Phantom Auto (non-GAAP reconciling item): \$7 million vs. \$4 million in 3Q'22
- Loss in “Other and eliminations” (non-GAAP basis which excludes Projected Innovative Technology Costs): \$6 million vs. \$5 million in 3Q'22
- Interest Income, net of Interest Expense: \$0.9 million vs. Interest Expense, net of Interest Income of \$0.6 million in 3Q'22

FY'23 – Projected Other Items

- Projected Innovative Technology Costs in “Other and eliminations” related to our freight handling pilot program with third-party customers and human-centered remote and automated operations, as previously announced in connection with our investment in Phantom Auto (non-GAAP reconciling item): \$25 million vs. \$14 million in 2022
- Loss in “Other and eliminations” (non-GAAP basis which excludes Projected Innovative Technology Costs and other items): \$26 million vs. \$25 million in 2022.
- Interest Income, net of Interest Expense: \$3 million vs. Interest Expense, net of Interest Income of \$4 million in 2022

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

ArcBest Consolidated

“Other and eliminations” within Operating Income on the Operating Segment Data and Operating Ratios statement

- The “Other and eliminations” line includes expenses related to shared services for the delivery of comprehensive transportation and logistics services to ArcBest’s customers, as well as investments in ArcBest technology and innovation. Shared services represent costs incurred to support all segments including sales, yield, customer service, marketing, capacity sourcing functions, human resources, financial services, information technology, legal and other company-wide services. Shared services are primarily allocated to the reporting segments based upon resource utilization-related metrics, such as estimated shipment levels or number of personnel supported, and therefore fluctuate with business levels. As a result, the loss in “Other and eliminations” tends to be higher in periods when business levels are lower and, consequently, allocations to operating segments are lower.

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

ArcBest Consolidated

MoLo Contingent Earnout Consideration

- As previously disclosed, contingent earnout consideration for the MoLo acquisition will be paid based on achievement of certain targets of adjusted earnings before interest, taxes, depreciation, and amortization, as adjusted for certain items pursuant to the merger agreement, for years 2023 through 2025. The liability for contingent earnout consideration is remeasured at fair value each quarter, and any change in fair value as a result of the recurring quarterly assessment is recognized in operating income. Factors impacting the fair value of the contingent earnout consideration include actual and forecasted operating results of MoLo, market volatility and discount rate considerations (including interest rates and other market factors).

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

ArcBest Consolidated Capital Expenditures

FY'23 – Projected

- Total Net Capital Expenditures, including financed equipment: \$270 million to \$295 million (from the previous \$300 million to \$325 million)
- Approximately \$60 million of previously planned 2022 net capital expenditures, associated with supply chain-related manufacturing delays and cancellations, are included in the 2023 net capital expenditures total.
- Includes revenue equipment purchases (majority for Asset-Based) of \$165 million.
- Includes real estate expenditures (majority for Asset-Based) of \$50 million to \$60 million.
- The remaining amount of capital expenditures includes items related to technology and miscellaneous dock equipment upgrades and enhancements.
- Depreciation and amortization costs on property, plant and equipment: approximately \$125 million
- Intangible asset amortization, primarily reflecting purchase accounting amortization related to the MoLo acquisition: \$13 million

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

ArcBest Consolidated

Share Repurchase Program

- Based on repurchases settled through June 30, 2023, \$83.8 million remains available under the current repurchase authorization for future common stock purchases.

Tax Rate

- ArcBest's second quarter 2023 effective GAAP tax rate for continuing operations was 18.6%. The "Effective Tax Rate Reconciliation" table of ArcBest's second quarter 2023 earnings press release in Exhibit 99.1 shows the reconciliation of GAAP to non-GAAP effective tax rates. The effective non-GAAP tax rate for second quarter 2023 was 27.2%. Under the current tax laws, we expect our full year 2023 non-GAAP tax rate for continuing operations to be in a range of 26% to 26.5%. The effective tax rate may be impacted by discrete items that could occur throughout the year.

Additional Information

The following information was included in an exhibit of an ArcBest 8-K filed on 7/28/23.

SUMMARY OPERATING AND FINANCIAL IMPACTS

ArcBest Consolidated

“Other, net” line within Other Income (Costs) on the Consolidated Statements of Operations

- The “Other, net” line of ArcBest’s income statement primarily includes the costs associated with postretirement plans, changes in cash surrender value of life insurance and changes in fair value of equity investment. After excluding non-GAAP reconciling items detailed in the table below, ArcBest expects the 2023 non-GAAP “Other, net” expense to approximate the 2022 expense.
- Changes in cash surrender value of life insurance included an increase of \$1.1 million in second quarter 2023 compared to a decrease of \$2.7 million in second quarter 2022, reflecting market gains experienced in second quarter 2023 on these assets that are invested much like pension plan assets. Changes in fair value of equity investment represents a \$3.7 million increase in the fair value of our investment in Phantom Auto, the leading provider of human-centered remote operation software, based on observable price changes during second quarter 2023. ArcBest excludes changes in cash surrender value and changes in fair value of equity investments when presenting non-GAAP net income and EPS.

The 2022 period also includes amounts related to the alternative fuel tax credit for the year ended December 31, 2021 which were recorded in third quarter 2022.

17) Impact on current or deferred income tax expense as a result of recognizing the tax effects of the Tax Cuts and Jobs Act that was signed into law on December 22, 2017.

18) Non-GAAP amounts are calculated in total and may not equal the sum of the GAAP and the non-GAAP adjustments due to rounding.

Reconciliations of GAAP to Non-GAAP Financial Measures (Unaudited)

- 1) Adjusted EBITDA is a primary component of the financial covenants contained in ArcBest Corporation's Fourth Amended and Restated Credit Agreement. Management believes Adjusted EBITDA to be relevant and useful information, as EBITDA is a standard measure commonly reported and widely used by analysts, investors, and others to measure financial performance and ability to service debt obligations. Furthermore, management uses Adjusted EBITDA as a key measure of performance and for business planning. However, these non-GAAP financial measures should not be construed as better measurements than operating income, operating cash flow, net income, or earnings per share, as determined under GAAP. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results. Other companies may calculate EBITDA differently; therefore, our Adjusted EBITDA may not be comparable to similarly titled measures of other companies.
- 2) Includes amortization of intangibles associated with acquired businesses.
- 3) Represents change in fair value of the contingent earnout consideration recorded for the MoLo acquisition.
- 4) Represents change in fair value of our investment in Phantom Auto, the leading provider of human-centered remote operation software, based on observable price changes during second quarter 2023.
- 5) Consolidated adjusted EBITDA is calculated in total and may not equal the sum of the adjustments due to rounding.

- 5) Impairment charges related to equipment replacement and other one-time costs incurred to comply with the electronic logging device ("ELD") mandate which became effective in December 2019.
- 6) Represents a one-time, noncash charge for enhancements to our nonunion vacation policy which were effective third quarter 2022.
- 7) Consulting fee incurred in third quarter 2019 associated with the termination of the nonunion defined benefit pension plan.
- 8) Non-GAAP amounts are calculated in total and may not equal the sum of the GAAP and the non-GAAP adjustments due to rounding.

Note: ArcBest Corporation reports its financial results in accordance with generally accepted accounting principles ("GAAP"). However, management believes that certain non-GAAP performance measures utilized for internal analysis provides analysts, investors, and others the same information that we use internally for purposes of assessing our core operating performance and provides meaningful comparisons between current and prior period results, as well as important information regarding performance trends. Accordingly, using these measures improves comparability in analyzing our performance because it removes the impact of items from operating results that, in management's opinion, do not reflect our core operating performance. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results. These financial measures should not be construed as better measurements than operating income (loss), operating cash flow, net income (loss) or earnings (loss) per share, as determined under GAAP.

1) Operating Income for 2009-2017 has been adjusted for the January 1, 2018, adoption of an amendment to ASC Topic 715 which requires the components of net periodic benefit cost other than service cost for our pension, SBP and postretirement plans to be presented within Other Income (Costs) in the consolidated financial statements and, therefore, excluded from Operating Income presented in this table. (The 2009-2017 amounts presented were adjusted for the change in presentation of net periodic benefit costs in the 2018 financial statements to conform with the current year presentation.)

2) Restructuring charges relate to the realignment of the Company's organizational structure announced on November 3, 2016.

3) Transaction costs associated with the January 1, 2012, acquisition of Panther Expedited Services, Inc., the December 1, 2015, acquisition of Bear Transportation Group, LLC, the September 2, 2016, acquisition of Logistics & Distribution Services, LLC, and the November 1, 2021, acquisition of MoLo Solutions, LLC.

4) Represents a one-time charge recognized in June 2018 for the multiemployer pension fund withdrawal liability resulting from the transition agreement ABF Freight, Inc. entered into with the New England Teamsters and Trucking Industry Pension Fund.

5) Gains associated with the December 2017 and April 2021 divestitures of moving services subsidiaries for which the gains were recognized in third quarter 2017 and 2018 and second quarter 2021, respectively, when the contingent consideration was received on the transactions, as well as including the contingent amount recognized in second quarter 2022 when the funds were released to escrow.

6) Represents costs associated with the Vaux freight handling pilot test program at ABF Freight, costs related to our customer pilot offering of Vaux, including human-centered remote operation software, and initiatives to optimize our performance through technological innovation. Costs prior to 2021 have been adjusted to conform to the current-year presentation.

7) Impairment charges related to equipment replacement and other one-time costs incurred to comply with the electronic logging device ("ELD") mandate which became effective in December 2019.

8) Noncash goodwill impairment charge recognized in fourth quarter 2009. Noncash impairment charge recognized in fourth quarter 2019 relates to a portion of the goodwill, customer relationship intangible assets, and revenue equipment associated with the acquisition of truckload brokerage and truckload dedicated businesses within the ArcBest segment.

9) Consulting fee incurred in third quarter 2019 associated with the termination of the nonunion defined benefit pension plan.

10) Represents the amortization of acquired intangible assets related to the November 1, 2021 acquisition of MoLo and previously acquired businesses in the ArcBest segment.

11) Represents change in fair value of the contingent earnout consideration recorded for the MoLo acquisition. The liability for contingent consideration is remeasured at each quarterly reporting date, and any change in fair value as a result of the recurring assessments is recognized in operating income. The contingent consideration for the MoLo acquisition will be paid based on achievement of certain targets of adjusted earnings before interest, taxes, depreciation, and amortization, as adjusted for certain items pursuant to the merger agreement, for years 2023 through 2025.

12) Unfavorable third-party casualty claim associated with a bankrupt FleetNet customer.

13) Represents a one-time, noncash charge for enhancements to our nonunion vacation policy which were effective third quarter 2022.

14) Non-GAAP amounts are calculated in total and may not foot due to rounding.

Reconciliations of GAAP to Non-GAAP Financial Measures (Unaudited)

- 1) Management uses Adjusted Return on Capital Employed (ROCE) as a measure of the profitability of the company's capital employed in its business operations. ROCE is a good indicator of long-term company and management performance as it relates to capital efficiency. The calculation of ROCE as presented below begins with the numerator of Net Income from Continuing Operations and the denominator of Average Debt and Average Total Equity. The Net Income from Continuing Operations is adjusted for Non-GAAP items and after-tax interest expense.
- 2) Gain relates to the sale of the labor services portion of the Asset-Light segment's moving business in second quarter 2021, including the contingent amount recognized in second quarter 2022 when the funds were released from escrow.
- 3) Represents costs associated with the Vaux freight handling pilot test program at ABF Freight, costs related to our customer pilot offering of Vaux, including human-centered remote operation software, and initiatives to optimize our performance through technological innovation.
- 4) Represents the amortization of acquired intangible assets in the Asset-Light segment.
- 5) Represents change in fair value of the contingent earnout consideration recorded for the MoLo acquisition.
- 6) Represents a one-time, noncash charge for enhancements to our nonunion vacation policy which were effective third quarter 2022.
- 7) Represents recognition of the tax impact for the vesting of share-based compensation.
- 8) Includes the amount recognized in the tax provision during fourth quarter 2022 to adjust estimated amounts recognized during 2022 for the research and development tax credit related to the tax year ended February 28, 2022. It also includes amounts related to the alternative fuel tax credit for the year ended December 31, 2021, which were recorded in third quarter 2022.
- 9) After-tax interest expense is Interest and other related financing costs, net of an assumed 25.9% tax rate.
- 10) ROCE Earnings is calculated in total and may not equal the sum of the adjustments due to rounding.
- 11) Average total equity is beginning and ending Total Stockholders' Equity.
- 12) Average total debt is the average of the beginning and ending Current portion of long-term debt and Long-term debt, less current portion.
